Modelling & Analysis of Serological Data

Interested in how to analyse population serological data?

Undertaken a serological survey and want to do more with the data?

Join us as we cover:

- Background of transmission models
- Models for analysing serological data
- Applied group work putting theory into practice
- A chance to discuss and analyse your own serological data *(or work with example datasets)*

Course Details

📅 **17 - 20 November 2025**

📍 **OUCRU, Ho Chi Minh City, Vietnam**

💲 **Free | Funding available for travel**

Lecturers

Dr Clare McCormack
Imperial College London

Asst Prof Hannah Clapham
National University of Singapore

Prof Azra Ghani
Imperial College London,
National University of Singapore

Dr Ruth McCabe
Imperial College London
